Cassin's Vireo  
Found by H. David Bohlen, August 31-September 1, 2000  
Washington Park  
Springfield, IL

Bob: Dave B indicated that Myron  
& Dennis (w/ photos) were the only  
other observers. The bird was no where  
to be found after the 1st. So, Dave  
said that there were apparently only  
5 observers of this bird.
