First Round Vote:

U-I

Date:

April 5, 1995

Summarize the rationale you used to determine your vote, and indicate if you believe this record should be split or combined with another record. In addition, supplements or corrections to the data given above would be appreciated.

There was insufficient evidence (e.g. ruler, measurements) included in the actual photo itself. The best designation which can be given by solely observing the photo is *Selasphorus* sp.

Date: *27 March 95*

Summarize the rationale you used to determine your vote, and indicate if you believe this record should be split or combined with another record. In addition, supplements or corrections to the data given above would be appreciated.

*This is probably a correct record; however the photo itself
can not reliably identify this bird. (At least the photo I have
seen).*

MY NOTES ON THIS RECORD ARE UNCLEAR. PHOTO
NOT DIAGNOSTIC FOR RUFOUS, BUT SUPPORTIVE
(RUFOUS (ALLEN'S) ??
