Hi Geoffrey,

Attached are several shots of the mountain bluebird that I took on 4/12/17. I know quite a few people took photo's of this bird so you may get some better quality shots.

Stan Zatarski

Subject: IBET Request for documentation on various records of Review List species

Dear Illinois birders:

The Illinois Ornithological Records Committee (IORC) maintains archives of evidence for records of birds that are accidental, rare, or unusual in Illinois. Species for which IORC requests documentary evidence of sightings appear on IORC's "Review List." Below I am listing a set of apparent records from recent years of Review List species for which IORC has not received any documentation. I am hoping that individuals who have such evidence, especially photographs, will submit these to IORC. Because of copyright issues, IORC cannot harvest photos posted to Facebook or eBird without the photographers permission; we hope such photographers can at least forward their photos to IORC along with name of the species involved, date and location of occurrence, photographer's name, and any other relevant facts. Information about IORC, the Review List, and the submission process is available at <http://www.illinoisbirds.org/illinois-ornithological-records-committee/> Feel free also to contact me if you have questions.

Please note that because IORC's purpose is in part to maintain permanently the original bird records for use by future bird students, IORC provides access to the material associated with records to interested individuals. In fulfilling this purpose, IORC may publish photographs (and other material) submitted regarding records as part of IORC's regular reports and IOS's seasonal reports, which appear in the Illinois Ornithological Society's (IOS's) journal *Meadowlark*, and may also publish material (including photographs) on its web site. No other publication of submitted photographs is intended by IORC. IORC and IOS do not pay any reproduction fees for this use of images.

Also, for publication and review purposes, IOS and IORC prefer to have the highest available resolution for documentary photographs. Thanks!

Here are records for which I am hoping to get documentation.

- Harlequin Duck, 1 January 2017, Will County

- White-winged Dove, 17 April 2017, McLean County
- White-winged Dove, 9 July 2017, Christian County
- Pomarine Jaeger, 16 July 2016, Clinton County
- Pomarine Jaeger, 4 October 2016, Cook County
- Parasitic Jaeger, 15 September 2017, Moultrie County
- Mew Gull, 1 January 2017, Will County
- Magnificent Frigatebird, 15 September 2017, Will County
- Neotropic Cormorant, 3-6 June 2017, Sangamon County
- Neotropic Cormorant, 3-24 July 2017, DuPage County
- Neotropic Cormorant, 9-18 July 2017, Kane County
- Neotropic Cormorant, 14-29 July 2017, Jackson County
- Neotropic Cormorant, 15 September 2017, Cook County
- Anhinga, 15 April 2017, Massac County
- Anhinga, 24 June - 29 July 2017, Jackson County
- Tricolored Heron, 8 July 2017, Lake County
- Tricolored Heron, 6 September 2017, Lake County
- Barn Owl, 5 March 2017, Sangamon County
- Gyrfalcon, 13 February 2017, McLean County
- Prairie Falcon, 28 October 2016 through 29 January 2017, Coles County and Douglas County
- Prairie Falcon, 12 November 2016 through 16 January 2017, Wayne County
- Prairie Falcon, 28 December 2016, Jasper County
- Prairie Falcon, 28 November 2016, Boone County
- Prairie Falcon, 21-26 January 2017, Sangamon County
- Mountain Bluebird, 7-12 April 2017, DuPage County
- Yellow Palm Warbler, 8 November 2016, Cook County
- Western Tanager, 21 May 2017, LaSalle County
- Western Tanager, 11 May 2017, Cook County

Thanks!

Geoff Williamson
IORC Secretary
