**Name of bird form:** White Ibis

**Committee member name:** Geoffrey A. Williamson

**Date of review:** 29 April 2022

**Circulation number:** 1st

**Vote:** A-PE

**Comments:**

I suppose it is possible that one or more birds among the records 2020-144, 2020-145, and 2020-146 are involved in more than one record, given that the earliest record (2020-144, 4 Aug 2020) is the most northern and that the next record (2020-145, 7-16 Aug 2020) is in the middle, and the final record (2020-146, 2 Sep 2020) is the southernmost, and all within the Illinois and Mississippi river basins.
